I. Introduction

The New York State Department of Health (NYSDOH), Division of Environmental Health Assessment, Bureau of Occupational Health and Injury Prevention, is soliciting applications for a contract for the operation of an occupational health clinic in the Western Region to participate in a statewide clinic network.

Applications for these contracts are due to the NYSDOH by December 12, 2013. These applications will be reviewed and it is anticipated that successful applicants will be notified by March 1, 2014.

The contract period is expected to run from April 1, 2014 – March 31, 2018. The contract will total approximately \$606,400 per year; only 1 award will be made. Funding for each year will be dependent upon availability of funds.

The successful applicant will demonstrate the capacity to operate, effective April 1, 2014, a community-based occupational health clinic focused on the diagnosis, treatment and prevention of work-related illness serving workers and retirees throughout a multi-county catchment area. Applicants will be evaluated based on their ability to demonstrate occupational medicine services consistent with the objectives of this Request for Applications (RFA) and goals and a workplan detailing the services to be provided during the funding period. Guidance about what successful applicants will provide is detailed below.

The clinic will have an advisory board with representatives from business, unions, public health agencies, and community groups. The board will assist in the development of policies, the creation and implementation of a targeted outreach plan, and overall guidance for the clinics on an ongoing basis.

The clinic will be expected to focus on the diagnosis, screening, treatment, referral, and prevention of occupational diseases of greatest public health significance in the Western Region. The major emphasis must be on the accurate diagnosis of workers (or former workers) with illnesses potentially related to their workplace environments. Clinic staff shall have significant training and experience in this area.

Referring patients for further diagnostic or treatment services and for rehabilitative services, as appropriate, is an important clinic function. Integration and coordination with other medical care providers and institutions in the area to ensure comprehensive care will be essential. It is expected the clinic will provide expert diagnostic services and not ongoing medical care to most of their patients.

Providing counseling for patients and their families regarding financial, social, and psychological aspects of occupational disease will be another important objective.

Disease prevention activities will be a major focus for the clinic. Steps should be taken to ensure that workplace exposures causing the illness are appropriately identified and the question of co-workers at risk addressed. Where possible, recommendations for mitigating exposures should be developed and promulgated. The objectives are a prompt, safe return to work for the affected individual, and the prevention of other cases of occupational illness.

Another key component of the clinic's prevention activities is the provision of occupational health and safety education. Education should be provided to individual patients, as well as to groups including workers, employers, unions, or community organizations. In addition, education and training should be offered to health professionals outside the clinic in order to broaden the base of occupational health and safety knowledge within the medical community and increase awareness of potential occupational health hazards.

In order to assure high quality of care, the clinic will conduct an ongoing Quality Assurance program, and will participate in a Network-wide Quality Improvement Program.

Oversight and coordination of the Occupational Health Clinic Network will be provided through the NYSDOH's Division of Environmental Health Assessment (DEHA). The Division will direct a number of activities related to the operation of the Network.

II. Who May Apply

Through this RFA, \$606,400 will be awarded annually to support the operation of the occupational health clinic in the Western Region from 2014 through 2018. Applicants must describe how services will be provided to ALL counties within this region. The amount of the contract to be awarded was determined based on a formula that uses the approximate square mileage of the service area times the labor force for the service area (with weighting). The Western Region includes the following counties: Allegany, Cattaraugus, Chautauqua, Erie, and Niagara.

Minimum Requirements:

The Attestation document (Attachment 6) must be signed and included in the packet. Failure to submit will result in disqualification.

Eligible institutions must be not-for-profit diagnostic and treatment facilities certified through Article 28 of the Public Health Law or not-for-profit general hospitals as defined by subdivision 10 of Section 2801 of the Public Health Law or recognized faculty practice plans. Institutions must adhere to requirements for medical records confidentiality as outlined in Section 751.7 and Part 405.10 of the New York Compilation of Codes, Rules and Regulations and HIPAA regulations. Institutions must have computers with an internet connection.

Personnel Requirements:

Selected applicants will be required to submit documentation prior to the execution of contracts.

- Clinic will be led by a Medical Director, during the life of the contract, who is licensed to practice medicine in NYS, is Board Certified in Occupational Medicine, and will be on staff by April 1, 2014.
 - The Medical Director must provide direct patient care at the clinic site.
 - The Medical Director must be authorized by the NYS Workers Compensation Board.
- Applicants must document that employees are qualified and hold appropriate professional licensure and current registration from the New York State Department of Health or Education Department.

Preferred Eligibility Requirements:

Preferred eligibility will be given to applicants who can document:

- Geographic proximity of their organization to the designated geographic region in the State with provisions to reach wider geographic areas
- Experience providing services and programs to workers and employers
- Collaboration and/or integration of health-related services
- Innovative ways to reach identified target audiences
- A letter of support from the parent organization, if applicable, is required to be submitted with the application.

III. Project Narrative/ Work Plan Outcomes

A. Description of Applicant Organization and Capability (24 points)

Briefly describe the capacity of the organization to plan and implement a program to meet the service objectives specified by this RFA. Include a description of the facility program or provider practice, its mission, years of experience, scope of services, service capacity, and how the activities proposed in this application fit within its current mission. The clinic site should consider accesses to auxiliary diagnostic services, access to care for patients, and other factors regarding accessibility. Applicants must describe how services will be provided to all counties within the region.

Organizations with established occupational medicine programs should describe the populations that have been the recipients of services, and summarize accomplishments with the client populations. Discuss the experiences of the organization and key staff in providing comprehensive occupational health services and coordinating medical services, mental health, industrial hygiene and other supportive services. Describe other community health and population-based initiatives in which the organization is involved. The clinics are expected to provide counseling for patients and their families regarding financial, social, and psychological aspects of occupational disease; provide recommendations for mitigating workplace exposures; develop safe return-to-work criteria; and provide occupational health and safety education.

Facilities with limited occupational medicine programs intending to use potential funds to establish more comprehensive centers will be required to describe an expansion plan. At a minimum, this will include a description of a planning, implementation and evaluation phase. It is reasonable to expect that a clinic will be fully operational within a 12-month period. Successful applicants will communicate their ability to implement all three phases and to provide a full range of occupational medicine services by the end of the first year of funding. The planning phase must incorporate the needs assessment and the development of a work plan and will take place during the first 6 months of funding. The applicant must also describe the populations to which they will provide services, how they plan to coordinate medical, mental health, industrial hygiene and other supportive services, and how they will provide occupational health and safety education.

Describe key personnel for this project, current staff and how additional staff will be recruited and educated. The clinic must have a Medical Director:

1. The Medical Director is responsible for conducting oversight of diagnosis and treatment, long-term policy and planning decisions. The Medical Director should spend at least 10% of his/her time providing clinical services in the funded clinic. The Medical Director must be authorized by the Workers Compensation Board. The same individual may maintain the

roles of the Medical Director and the staff physician. The Medical Director will ensure the clinic is achieving the goals as established in this RFA. They will participate in administrative, preventive, education, research and clinical activities, including:

- developing long and short-term goals for the clinic;
 - directing clinical management meetings, establishing protocols and standing orders for the clinic, overseeing quality assurance programs;
 - attending advisory board meetings;
 - working with other professional staff to identify those worker populations at high risk of serious occupational disease and develop a plan for delivering the appropriate occupational health services and prevention/education services to those populations;
 - designing and delivering educational programs/lectures on a wide variety of occupational health issues;
 - conducting and/or collaborating on research projects focused on occupational illness and disease with publication in appropriate peer-reviewed journals.
2. A staff physician, who may also be the Medical Director, is required to:
- assess patient health status through medical/occupational history taking, physical examination, and ordering appropriate tests, evaluate and treat workers with occupational and environmental illness or injury;
 - testify at Workers Compensation hearings and provide medical expertise at court proceedings;
 - perform medical surveillance exams to monitor workplace exposures;
 - serve as a preceptor for medical students and residents, as appropriate.
3. All other proposed staff positions should be listed, with a brief job description for each. Summarize the qualifications of key personnel by including a short biographical sketch in this portion of the narrative. Curricula vitae of key personnel must be included as attachments, but these should not appear in the narrative. For vacant positions, a recruitment plan should be delineated. All staff should have adequate education, training and experience in their given fields, including certified industrial hygienists, social workers and, certified occupational health nurses. The clinic should have a plan in place for continuing occupational health education for all staff.
4. Describe any problems you anticipate in providing services under this RFA, and a plan to address them.

B. Assessment of Target Community Needs (12 points)

Successful applicants will demonstrate an understanding of the prevalent occupational health needs and problems of workers in the Western region. Describe known social, cultural, economic and geographical barriers to care for this population.

Identify those most at risk of serious occupational disease, including the high risk employers, industries, occupations and workers within the catchment area. This should include identifying the exposures and workplace issues facing these populations.

Describe known social, cultural, economic and geographic barriers to care for this population. Then describe provider qualities and other factors to address these barriers including improving access, availability, acceptability and affordability of care.

Document the sources for all data cited, including the [New York State Department of Labor](#).

C. Integration with the Local Community (12 points)

The establishment of an advisory board will be a requirement of the resulting contract. The proposal should include a description of the role, structure, and proposed membership of the advisory board. The board will assist in the development of policies; define selection criteria and assist in reviewing and retaining qualified staff; review and approve the annual budget; assist in creating and implementing a targeted outreach program linking clinic services to workers, unions and businesses; and guide the clinic's work on an on-going basis. The goal for the make-up of the advisory board is representation from organizations interested or involved in occupational health and safety, including labor unions, business groups or owners, health care organizations, advocacy groups, and community-based groups. The advisory board must meet quarterly, at a minimum. Once the successful applicant has been selected and notified, a list of the advisory board members is required to be supplied to the NYSDOH annually or whenever the membership has changed. A mid-contract period needs assessment will be required with involvement from the advisory board.

Letters of support from organizations, with which the clinic will collaborate, including those where participation on the advisory board is anticipated, should be included with the grant application.

D. Workplan for Provision of Services (32 points)

Applicants must submit a short narrative summarizing how the following services will be provided. For each service, an appropriate staff person needs to be identified to conduct this service with the percent of their time devoted to the grant identified.

Clinical Services

Led by the Medical Director, the clinic will employ multidisciplinary staff that will provide independent and accurate diagnosis of the broad spectrum of occupational diseases. Patients will be appropriately referred for further diagnostic or treatment services and for rehabilitative services. Integration and coordination with other medical care providers and institutions in the area to ensure comprehensive care will be essential. This integration will involve both the referral of patients to these groups for further diagnosis or care, and the referral of patients from these institutions and from primary care providers for occupational medicine evaluations. Because the focus is providing expert diagnostic services, the clinic will not be expected to provide ongoing medical care to most of their patients. Group screenings should be offered to high-risk workers. In order to assure a high quality of care, the clinic will implement an ongoing Quality Assurance program, and will participate in a network-wide Quality Improvement program as defined by the Department.

Industrial Hygiene Services

Steps should be taken to ensure that workplace exposures causing illnesses are appropriately identified. The question of whether co-workers are at risk must be addressed. Where possible, recommendations for mitigating exposures should be developed and promulgated. The objectives are a prompt, safe return to work for the affected individual, and the prevention of other cases of occupational illness. Outreach to involved work sites is required.

Social Work Support Services

Providing individual counseling for patients and their families regarding financial, social, and psychological aspects of occupational disease is another important objective. This will involve discussing problems and developing action plans directed towards resolving issues including crisis

intervention, education about illness and injury and common responses, legal services, financial issues, and referrals to community agencies. Disability assessment and rehabilitation services to facilitate safe return to work need to be addressed.

Preventive Services

Another key component of the clinic's prevention activities is the provision of occupational health and safety education. Group screenings will be conducted, as appropriate. Prevention activities will be part of every group screening. The clinic should provide education to workers on the prevention of occupational injury and illness. The clinic should make these resources publically available. Education should be provided to individual patients, and to groups including workers, employers, unions, or community organizations.

Education of the Medical Community

In addition, education and training should be offered to health professionals outside the clinic in order to broaden the base of occupational health and safety knowledge within the medical community and to increase awareness of potential occupational health hazards. This should include working with students in the medical community by providing education, acting as preceptors, assisting with clinical rotations, and/or arranging for site visits to industrial settings. Education to primary care providers including conducting grand rounds and speaking at professional meetings should also be provided.

Services to Special Populations as Identified by the Needs Assessment

The clinic will identify groups of workers from the Western Region who are at high-risk of occupational disease and who have limited access to high quality occupational medicine services. A description of provider qualities and other factors that are likely to address these identified needs will be provided.

E. Anticipated Earned Income

The clinic will provide a comprehensive assessment showing all possible income sources including but not limited to, research grants, insurance reimbursement, service contracts (e.g. screenings). Documentation of income will be submitted annually if a contract is awarded.

F. Required Data, Reports, Meetings

- Patient Data - Information on each patient evaluated at the clinic will be reported to the Department via the clinic network database in a format specified by the Department. Those data are due within 30 days of the patient visit.
- Occupational Disease Registry Reports - For patients with conditions meeting the diagnostic criteria of the Heavy Metals, Occupational Lung Disease, or Pesticide Poisoning Registries, the information submitted will be in accordance with the requirements for those registries. Timely and complete submission to the Clinic Network database will fulfill reporting requirements.
- Advisory Board Reports - Copies of the Advisory Board's meeting notices, agendas, and minutes will be sent to the Department at the time they are distributed to board members. The Department shall approve the composition of the board.
- Quarterly Report - Information about the clinic's education, outreach, and workplace intervention activities will be reported to the Department on a quarterly basis utilizing a format provided by the Department. In addition, the report will include a short summary of notable developments and of issues warranting Network discussion.
- Annual Report - The report will include descriptive epidemiology, the identification of high-

risk industries/occupations/workplaces, and a comparison with previous years' patients. In addition, the report will include a brief programmatic summary. That summary will review outstanding issues from the report period, an assessment of the effectiveness of the targeted outreach plan for that period, and an updated targeted outreach plan for the next period.

- Quality Assurance / Quality Improvement – All chart reviews and audits will be conducted in the manner and timeframe prescribed by the Department. Audit sheets, summary score sheets, and brief summary reports will be submitted in a timely manner.
- Quarterly Meetings - Key personnel must attend periodic meetings of the entire Occupational Health Clinic Network held by the Department. These meetings are generally held quarterly to discuss a variety of medical, scientific, and administrative issues that are of importance to the Clinic Network. The meetings will be of one-day duration. The clinic must be represented by senior staff at these meetings.
- Reimbursement – The clinic will provide a comprehensive report of all income including but not limited to, research grants, insurance reimbursement, service contracts (screenings).
- Needs Assessment – On June 30, 2015 a report that describes the prevalent occupational health needs and problems of workers in the Western Region. The development of this report must include input from the advisory board. The report will describe known social, cultural, economic and geographical barriers to care for this population, including:
 - Identify those most at risk of serious occupational disease, including the high risk employers, industries, occupations and workers within the catchment area. This should include identifying the exposures and workplace issues facing these populations.
 - Describe known social, cultural, economic and geographical barriers to care for population. Then describe provider qualities and other factors likely to address these barriers including improving access, availability, acceptability and affordability of care.
 - Document the sources for all data cited, including the New York State Department of Labor.

Beginning July 31, 2013, all not-for-profit vendors subject to prequalification will be required to prequalify prior to grant application and execution of contracts.

Prequalification is a new statewide process designed to facilitate prompt contracting for not-for-profit vendors. Interested vendors will be asked to submit commonly requested documents, and answer frequently asked questions once. The application requests organizational information about the vendor's *capacity, legal compliance, and integrity*.

Not-for-profit vendors subject to prequalification will submit their responses online in the new Grants Gateway, and all information will be stored in a virtual, secured vault. Once a vendor is registered with the system, State agencies will have ready access to the vault, eliminating redundant submissions of such information by the vendor. Not-for-profits will only have to prequalify every three years, with responsibility to keep their information current throughout the three year period. To obtain access to the Grants Gateway, vendors should submit a registration form downloadable on the Grants Reform website at: <http://grantsreform.ny.gov/Grantees>.

**STATE OF NEW YORK
MASTER CONTRACT FOR GRANTS**

This State of New York Master Contract for Grants (Master Contract) is hereby made by and between the State of New York acting by and through the applicable State Agency (State) and the public or private entity (Contractor) identified on the face page hereof (Face Page).

WITNESSETH:

WHEREAS, the State has the authority to regulate and provide funding for the establishment and operation of program services, design or the execution and performance of construction projects, as applicable and desires to contract with skilled parties possessing the necessary resources to provide such services or work, as applicable; and

WHEREAS, the Contractor is ready, willing and able to provide such program services or the execution and performance of construction projects and possesses or can make available all necessary qualified personnel, licenses, facilities and expertise to perform or have performed the services or work, as applicable, required pursuant to the terms of the Master Contract;

NOW THEREFORE, in consideration of the promises, responsibilities, and covenants herein, the State and the Contractor agree as follows:

STANDARD TERMS AND CONDITIONS

I. GENERAL PROVISIONS

A. Executory Clause: In accordance with Section 41 of the State Finance Law, the State shall have no liability under the Master Contract to the Contractor, or to anyone else, beyond funds appropriated and available for the Master Contract.

B. Required Approvals: In accordance with Section 112 of the State Finance Law (or, if the Master Contract is with the State University of New York (SUNY) or City University of New York (CUNY), Section 355 or Section 6218 of the Education Law), if the Master Contract exceeds \$50,000 (or \$85,000 for contracts let by the Office of General Services, or the minimum thresholds agreed to by the Office of the State Comptroller (OSC) for certain SUNY and CUNY contracts), or if this is an amendment for any amount to a contract which, as so amended, exceeds said statutory amount including, but not limited to, changes in amount, consideration, scope or contract term identified on the Face Page (Contract Term), it shall not be valid, effective or binding upon the State until it has been approved by, and filed with, the New York Attorney General Contract Approval Unit (AG) and OSC. If, by the Master Contract, the State agrees to give something other than money when the value or reasonably estimated value of such consideration exceeds \$10,000, it shall not be valid, effective or binding upon the State until it has been approved by, and filed with, the AG and OSC.

Budget Changes: An amendment that would result in a transfer of funds among program activities or budget cost categories that does not affect the amount, consideration, scope or other terms of such contract may be subject to the approval of the AG and OSC where the amount of such modification is, as a portion of the total value of the contract, equal to or greater than ten percent for contracts of less than five million dollars, or five percent for contracts of more than

Contract Number: # _____

five million dollars; and, in addition, such amendment may be subject to prior approval by the applicable State Agency as detailed in Attachment D (Payment and Reporting Schedule).

C. Order of Precedence:

In the event of a conflict among (i) the terms of the Master Contract (including any and all attachments and amendments) or (ii) between the terms of the Master Contract and the original request for proposal, the program application or other attachment that was completed and executed by the Contractor in connection with the Master Contract, the order of precedence is as follows:

1. Standard Terms and Conditions
2. Modifications to the Face Page
3. Modifications to Attachment A-2¹, Attachment B, Attachment C and Attachment D
4. The Face Page
5. Attachment A-2², Attachment B, Attachment C and Attachment D
6. Modification to Attachment A-1
7. Attachment A-1
8. Other attachments, including, but not limited to, the request for proposal or program application

D. Funding: Funding for the term of the Master Contract shall not exceed the amount specified as “Contract Funding Amount” on the Face Page or as subsequently revised to reflect an approved renewal or cost amendment. Funding for the initial and subsequent periods of the Master Contract shall not exceed the applicable amounts specified in the applicable Attachment B form (Budget).

E. Contract Performance: The Contractor shall perform all services or work, as applicable, and comply with all provisions of the Master Contract to the satisfaction of the State. The Contractor shall provide services or work, as applicable, and meet the program objectives summarized in Attachment C (Work Plan) in accordance with the provisions of the Master Contract, relevant laws, rules and regulations, administrative, program and fiscal guidelines, and where applicable, operating certificate for facilities or licenses for an activity or program.

F. Modifications: To modify the Attachments or Face Page, the parties mutually agree to record, in writing, the terms of such modification and to revise or complete the Face Page and all the appropriate attachments in conjunction therewith. In addition, to the extent that such modification meets the criteria set forth in Section I.B herein, it shall be subject to the approval of the AG and

¹ To the extent that the modifications to Attachment A-2 are required by federal requirements and conflict with other provisions of the Master Contract, the modifications to Attachment A-2 shall supersede all other provisions of this Master Contract. See Section I(V).

² To the extent that the terms of Attachment A-2 are required by federal requirements and conflict with other provisions of the Master Contract, the federal requirements of Attachment A-2 shall supersede all other provisions of this Master Contract. See Section I(V).

OSC before it shall become valid, effective and binding upon the State. Modifications that are not subject to the AG and OSC approval shall be processed in accordance with the guidelines stated in the Master Contract.

G. Governing Law: The Master Contract shall be governed by the laws of the State of New York except where the Federal Supremacy Clause requires otherwise.

H. Severability: Any provision of the Master Contract that is held to be invalid, illegal or unenforceable in any respect by a court of competent jurisdiction, shall be ineffective only to the extent of such invalidity, illegality or unenforceability, without affecting in any way the remaining provisions hereof; provided, however, that the parties to the Master Contract shall attempt in good faith to reform the Master Contract in a manner consistent with the intent of any such ineffective provision for the purpose of carrying out such intent. If any provision is held void, invalid or unenforceable with respect to particular circumstances, it shall nevertheless remain in full force and effect in all other circumstances.

I. Interpretation: The headings in the Master Contract are inserted for convenience and reference only and do not modify or restrict any of the provisions herein. All personal pronouns used herein shall be considered to be gender neutral. The Master Contract has been made under the laws of the State of New York, and the venue for resolving any disputes hereunder shall be in a court of competent jurisdiction of the State of New York.

J. Notice:

1. All notices, except for notices of termination, shall be in writing and shall be transmitted either:
 - a) by certified or registered United States mail, return receipt requested;
 - b) by facsimile transmission;
 - c) by personal delivery;
 - d) by expedited delivery service; or
 - e) by e-mail.
2. Notices to the State shall be addressed to the Program Office designated in Attachment A-1 (Program Specific Terms and Conditions).
3. Notices to the Contractor shall be addressed to the Contractor's designee as designated in Attachment A-1 (Program Specific Terms and Conditions).
4. Any such notice shall be deemed to have been given either at the time of personal delivery or, in the case of expedited delivery service or certified or registered United States mail, as of the date of first attempted delivery at the address and in the manner provided herein, or in the case of facsimile transmission or e-mail, upon receipt.
5. The parties may, from time to time, specify any new or different e-mail address, facsimile

number or address in the United States as their address for purpose of receiving notice under the Master Contract by giving fifteen (15) calendar days prior written notice to the other party sent in accordance herewith. The parties agree to mutually designate individuals as their respective representatives for the purposes of receiving notices under the Master Contract. Additional individuals may be designated in writing by the parties for purposes of implementation, administration, billing and resolving issues and/or disputes.

K. Service of Process: In addition to the methods of service allowed by the State Civil Practice Law & Rules (CPLR), Contractor hereby consents to service of process upon it by registered or certified mail, return receipt requested. Service hereunder shall be complete upon Contractor's actual receipt of process or upon the State's receipt of the return thereof by the United States Postal Service as refused or undeliverable. Contractor must promptly notify the State, in writing, of each and every change of address to which service of process can be made. Service by the State to the last known address shall be sufficient. The Contractor shall have thirty (30) calendar days after service hereunder is complete in which to respond.

L. Set-Off Rights: The State shall have all of its common law, equitable, and statutory rights of set-off. These rights shall include, but not be limited to, the State's option to withhold, for the purposes of set-off, any moneys due to the Contractor under the Master Contract up to any amounts due and owing to the State with regard to the Master Contract, any other contract with any State department or agency, including any contract for a term commencing prior to the term of the Master Contract, plus any amounts due and owing to the State for any other reason including, without limitation, tax delinquencies, fee delinquencies, or monetary penalties relative thereto. The State shall exercise its set-off rights in accordance with normal State practices including, in cases of set-off pursuant to an audit, the finalization of such audit by the State Agency, its representatives, or OSC.

M. Indemnification: The Contractor shall be solely responsible and answerable in damages for any and all accidents and/or injuries to persons (including death) or property arising out of or related to the services to be rendered by the Contractor or its subcontractors pursuant to this Master Contract. The Contractor shall indemnify and hold harmless the State and its officers and employees from claims, suits, actions, damages and cost of every nature arising out of the provision of services pursuant to the Master Contract.

N. Non-Assignment Clause: In accordance with Section 138 of the State Finance Law, the Master Contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet, or otherwise disposed of without the State's previous written consent, and attempts to do so shall be considered to be null and void. Notwithstanding the foregoing, such prior written consent of an assignment of a contract, let pursuant to Article XI of the State Finance Law, may be waived at the discretion of the State Agency and with the concurrence of OSC, where the original contract was subject to OSC's approval, where the assignment is due to a reorganization, merger, or consolidation of the Contractor's business entity or enterprise. The State retains its right to approve an assignment and to require that the merged contractor demonstrate its responsibility to do business with the State. The Contractor may, however, assign its right to receive payments without the State's prior written consent unless the Master Contract concerns Certificates of Participation pursuant to Article 5-A of the State Finance Law.

O. Legal Action: No litigation or regulatory action shall be brought against the State of New York, the State Agency, or against any county or other local government entity with funds provided under

the Master Contract. The term “regulatory action” shall include commencing or threatening to commence a regulatory proceeding, or requesting any regulatory relief from any of the State of New York, the State Agency, or any county, or other local government entity.

P. No Arbitration: Disputes involving the Master Contract, including the breach or alleged breach thereof, may not be submitted to binding arbitration (except where statutorily authorized), but must, instead, be heard in a court of competent jurisdiction of the State of New York.

Q. Secular Purpose: Services performed pursuant to the Master Contract are secular in nature and shall be performed in a manner that does not discriminate on the basis of religious belief, or promote or discourage adherence to religion in general or particular religious beliefs.

R. Partisan Political Activity and Lobbying: Funds provided pursuant to the Master Contract shall not be used for any partisan political activity, or for activities that attempt to influence legislation or election or defeat of any candidate for public office.

S. Reciprocity and Sanctions Provisions: The Contractor is hereby notified that if its principal place of business is located in a country, nation, province, state, or political subdivision that penalizes New York State vendors, and if the goods or services it offers shall be substantially produced or performed outside New York State, the Omnibus Procurement Act 1994 and 2000 amendments (Chapter 684 and Chapter 383, respectively) require that it be denied contracts which it would otherwise obtain.³

T. Reporting Fraud and Abuse: Contractor acknowledges that it has reviewed information on how to prevent, detect, and report fraud, waste and abuse of public funds, including information about the Federal False Claims Act, the New York State False Claims Act, and whistleblower protections.

U. Non-Collusive Bidding: By submission of this bid, the Contractor and each person signing on behalf of the Contractor certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of his or her knowledge and belief that its bid was arrived at independently and without collusion aimed at restricting competition. The Contractor further affirms that, at the time the Contractor submitted its bid, an authorized and responsible person executed and delivered to the State a non-collusive binding certification on the Contractor’s behalf.

V. Federally Funded Grants: All of the Specific federal requirements that are applicable to the Master Contract are identified in Attachment A-2 (Federally Funded Grants) hereto. II. TERM, TERMINATION AND SUSPENSION

A. Term: The term of the Master Contract shall be as specified on the Face Page, unless terminated sooner as provided herein.

B. Renewal:

1. General Renewal: The Master Contract may consist of successive periods on the same terms and conditions, as specified within the Master Contract (a “Simplified Renewal Contract”). Each additional or superseding period shall be on the forms specified by the State and shall be incorporated in the Master Contract.

2. Renewal Notice to Not-for-Profit Contractors:

a) Pursuant to State Finance Law §179-t, if the Master Contract is with a not-for-profit Contractor and provides for a renewal option, the State shall notify the Contractor of the State’s intent to renew or not to renew the Master Contract no later than ninety (90) calendar days prior to the end of the term of the Master Contract, unless funding for the renewal is contingent upon enactment of an appropriation. If funding for the renewal is contingent upon enactment of an appropriation, the State shall notify the Contractor of the State’s intent to renew or not to renew the Master Contract the later of: (1) ninety (90) calendar days prior to the end of the term of the Master Contract, and (2) thirty (30) calendar days after the necessary appropriation becomes law. Notwithstanding the foregoing, in the event that the State is unable to comply with the time frames set forth in this paragraph due to unusual circumstances beyond the control of the State (“Unusual Circumstances”), no payment of interest shall be due to the not-for-profit Contractor. For purposes of State Finance Law §179-t, “Unusual Circumstances” shall not mean the failure by the State to (i) plan for implementation of a program, (ii) assign sufficient staff resources to implement a program, (iii) establish a schedule for the implementation of a program or (iv) anticipate any other reasonably foreseeable circumstance.

b) Notification to the not-for-profit Contractor of the State’s intent to not renew the Master Contract must be in writing in the form of a letter, with the reason(s) for the non-renewal included. If the State does not provide notice to the not-for-profit Contractor of its intent not to renew the Master Contract as required in this Section and State Finance Law §179-t, the Master Contract shall be deemed continued until the date the State provides the necessary notice to the Contractor, in accordance with State Finance Law §179-t. Expenses incurred by the not-for-profit Contractor during such extension shall be reimbursable under the terms of the Master Contract.

C. Termination:

1. Grounds:

- a) Mutual Consent: The Master Contract may be terminated at any time upon mutual written consent of the State and the Contractor.
- b) Cause: The State may terminate the Master Contract immediately, upon written notice of termination to the Contractor, if the Contractor fails to comply with any of the terms and conditions of the Master Contract and/or with any laws, rules, regulations, policies, or procedures that are applicable to the Master Contract.
- c) Non-Responsibility: In accordance with the provisions of Sections IV(N)(6) and (7) herein, the State may make a final determination that the Contractor is non-responsible (Determination of Non-Responsibility). In such event, the State may terminate the Master Contract at the Contractor's expense, complete the contractual requirements in any manner the State deems advisable and pursue available legal or equitable remedies for breach.
- d) Convenience: The State may terminate the Master Contract in its sole discretion upon thirty (30) calendar days prior written notice.
- e) Lack of Funds: If for any reason the State or the Federal government terminates or reduces its appropriation to the applicable State Agency entering into the Master Contract or fails to pay the full amount of the allocation for the operation of one or more programs funded under this Master Contract, the Master Contract may be terminated or reduced at the State Agency's discretion, provided that no such reduction or termination shall apply to allowable costs already incurred by the Contractor where funds are available to the State Agency for payment of such costs. Upon termination or reduction of the Master Contract, all remaining funds paid to the Contractor that are not subject to allowable costs already incurred by the Contractor shall be returned to the State Agency. In any event, no liability shall be incurred by the State (including the State Agency) beyond monies available for the purposes of the Master Contract. The Contractor acknowledges that any funds due to the State Agency or the State of New York because of disallowed expenditures after audit shall be the Contractor's responsibility.
- f) Force Majeure: The State may terminate or suspend its performance under the Master Contract immediately upon the occurrence of a "force majeure." For purposes of the Master Contract, "Force majeure" shall include, but not be limited to, natural disasters, war, rebellion, insurrection, riot, strikes, lockout and any unforeseen circumstances and acts beyond the control of the State which render the performance of its obligations impossible.

2. Notice of Termination:

- a) Service of notice: Written notice of termination shall be sent by:
 - (i) personal messenger service; or

(ii) certified mail, return receipt requested and first class mail.

b) Effective date of termination: The effective date of the termination shall be the later of (i) the date indicated in the notice and (ii) the date the notice is received by the Contractor, and shall be established as follows:

(i) if the notice is delivered by hand, the date of receipt shall be established by the receipt given to the Contractor or by affidavit of the individual making such hand delivery attesting to the date of delivery; or

(ii) if the notice is delivered by registered or certified mail, by the receipt returned from the United States Postal Service, or if no receipt is returned, five (5) business days from the date of mailing of the first class letter, postage prepaid, in a depository under the care and control of the United States Postal Service.

3. *Effect of Notice and Termination on State's Payment Obligations:*

a) Upon receipt of notice of termination, the Contractor agrees to cancel, prior to the effective date of any prospective termination, as many outstanding obligations as possible, and agrees not to incur any new obligations after receipt of the notice without approval by the State.

b) The State shall be responsible for payment on claims for services or work provided and costs incurred pursuant to the terms of the Master Contract. In no event shall the State be liable for expenses and obligations arising from the requirements of the Master Contract after its termination date.

4. *Effect of Termination Based on Misuse or Conversion of State or Federal Property:*

Where the Master Contract is terminated for cause based on Contractor's failure to use some or all of the real property or equipment purchased pursuant to the Master Contract for the purposes set forth herein, the State may, at its option, require:

a) the repayment to the State of any monies previously paid to the Contractor; or

b) the return of any real property or equipment purchased under the terms of the Master Contract; or

c) an appropriate combination of clauses (a) and (b) of Section II(C)(4) herein.

Nothing herein shall be intended to limit the State's ability to pursue such other legal or equitable remedies as may be available.

D. Suspension: The State may, in its discretion, order the Contractor to suspend performance for a reasonable period of time. In the event of such suspension, the Contractor shall be given a formal written notice outlining the particulars of such suspension. Upon issuance of such notice, the Contractor shall comply with the particulars of the notice. The State shall have no obligation to reimburse Contractor's expenses during such suspension period. Activities may resume at such time

as the State issues a formal written notice authorizing a resumption of performance under the Master Contract.

III. PAYMENT AND REPORTING

A. Terms and Conditions:

1. In full consideration of contract services to be performed, the State Agency agrees to pay and the Contractor agrees to accept a sum not to exceed the amount noted on the Face Page.
2. The State has no obligation to make payment until all required approvals, including the approval of the AG and OSC, if required, have been obtained. Contractor obligations or expenditures that precede the start date of the Master Contract shall not be reimbursed.
3. Contractor must provide complete and accurate billing invoices to the State in order to receive payment. Provided, however, the State may, at its discretion, automatically generate a voucher in accordance with an approved contract payment schedule. Billing invoices submitted to the State must contain all information and supporting documentation required by Attachment D (Payment and Reporting Schedule) and Section III(C) herein. The State may require the Contractor to submit billing invoices electronically.
4. Payment for invoices submitted by the Contractor shall only be rendered electronically unless payment by paper check is expressly authorized by the head of the State Agency, in the sole discretion of the head of such State Agency, due to extenuating circumstances. Such electronic payment shall be made in accordance with OSC's procedures and practices to authorize electronic payments.
5. If travel expenses are an approved expenditure under the Master Contract, travel expenses shall be reimbursed at the lesser of the rates set forth in the written standard travel policy of the Contractor, the OSC guidelines, or United States General Services Administration rates. No out-of-state travel costs shall be permitted unless specifically detailed and pre-approved by the State.
6. Timeliness of advance payments or other claims for reimbursement, and any interest to be paid to Contractor for late payment, shall be governed by Article 11-A of the State Finance Law to the extent required by law.
7. Article 11-B of the State Finance Law sets forth certain time frames for the Full Execution of contracts or renewal contracts with not-for-profit organizations and the implementation of any program plan associated with such contract. For purposes of this section, "Full Execution" shall mean that the contract has been signed by all parties thereto and has obtained the approval of the AG and OSC. Any interest to be paid on a missed payment to the Contractor based on a delay in the Full Execution of the Master Contract shall be governed by Article 11-B of the State Finance Law.

B. Advance Payment and Recoupment:

1. Advance payments, which the State in its sole discretion may make to not-for-profit grant recipients, shall be made and recouped in accordance with State Finance Law Section 179(u), this Section and the provisions of Attachment D (Payment and Reporting Schedule).
2. Advance payments made by the State to not-for-profit grant recipients shall be due no later than thirty (30) calendar days, excluding legal holidays, after the first day of the Contract Term or, if renewed, in the period identified on the Face Page.
3. Budget Instructions

Budget request should relate directly to activities described in the project narrative and workplan. List those positions, which support this initiative even if no funding is requested from New York State. Budget amounts should be rounded to the nearest dollar. All requested funds must be directly related to the proposed project. These funds may not be used to supplant existing funding sources such as existing staff wages for current hours worked. The budget is divided into two categories, personal services and non-personnel services (NPS).

Personal Services

Personnel

All personnel expenses related to this project should be listed.

Column Number:

- 1) Position Title – enter the title of the position which will contribute to the project.
- 2) Annualized Salary per Position - enter the annual salary to be paid to the employee during the year, regardless of funding source
- 3) Standard Work Week Hours – enter the numbers of hours that the employee typically works.
- 4) Percent of Effort Funded - enter the % of time the employee will spend on the project based on a full time equivalent (FTE). One FTE is based on the number of hours worked in one week by salaried employees (e.g., 40 hour workweek). To determine a % FTE, divide the hours per week spent on the project by the number of hours in a workweek. For example, an individual working 10 hours per week on the project given a 40 hour work week = $10/40=0.25$ (show in decimal form).
- 5) Number of Months Funded - enter the number of months the position is to be funded by this grant. Note: the number of months may be less than the contract period, but can never exceed the number of months in the contract period.
- (6) Total - calculate by multiplying the annual salary by the FTE. Then multiply the result by number of months funded divided by 12 (salary x % FTE x # of months/12).

Fringe Benefits - enter the fringe benefit rate as well as the total amount on this line.

Total Personal Services - sum the expenses shown in column 6.

Non- Personal Services

All non-personal expenses related to this project should be listed regardless of whether or not funding for these expenses is being requested from New York State. For each category, itemize any cost over \$500; however, software, regardless of cost, should be broken out separately.

Budget Justification Instructions

Personal Services

All non-personal expenses related to this project should be listed regardless of whether or not funding for these expenses is being requested from New York State.

Indicate the title and name of incumbent, if not selected/designated, indicate to be hired/selected. The description should outline specific activities that will be carried out within the context of the project funded through this contract. Contracted, consultant, or per diem staff are not to be included in personal services; these expenses should be shown as consultant or contractual services under other than personal service.

Examples:

Medical Director: (Name) responsible for development and management of the program, interaction with partners, monitoring and evaluation.

Program Administrator: (Name) responsible for fiscal management, personnel management, and administration of the contract with the NYS Department of Health.

Fringe Benefits – Indicate the fringe benefit rate.

Examples:

Fringe Benefits: (Contractor Name) has identified the fringe rate for employees as 32.2% of the total salary.

Other Than Personal Services

Enter separate items for all appropriate expenditures, defined as expenses directly related to activities that relate to one, or more, of the workplan outcomes from Project Narrative/Workplan Outcomes (e.g. supplies, travel, equipment, printing, postage, rent, telephone, etc.). Amount of request should be shown for each category, as applicable. Applicants must demonstrate in the Budget Justification how the proposal expenditures relate to at least one of the categories in the workplan.

Contractual Services

Provide a listing of all subcontracts, including consultant contracts which will be supported in full or in part with the requested funding, along with a description of services to be provided which includes an estimate of the number of hours to be worked and the rate per hour, if applicable.

Travel

Itemize travel requests and provide the purpose and destination of each trip and the number of individuals for whom funds are requested.

Examples:

In-State:

Project Director/Outreach Director to one attend conference (including transportation, lodging, meals) at a cost of \$900 per person = \$900

Equipment

Definition: Any item with a unit cost of \$500 or more; however, software, regardless of cost, should be budgeted under Other Expenses and broken out separately. Provide a delineation of each piece of equipment and estimated cost along with a justification of need. Explanations should be more detailed if the equipment is unique or if special features are included that justify a higher cost.

Space/Property Expenses: Rent/Own

Indicate location of each space and amount for each space.

Example:
